Autism Research Centers

National Institute of Health (NIH)/Mental Health (NIMH) Autism Division

Contact: Dr. Maria Bristol-Powers

Formerly Early Childhood Director/UNC/Division TEACCH

Phone: 301-443-4513

Email: nimhinfo@nih.gov

Web: www.nimh.nih.gov

National Alliance for Autism Research (NAAR)

1-888-777-NAAR

414 Wall Street, Research Pk

Princeton, N.J. 08540

www.naar.org

Autism Research Institute (ARI)

Contact: Dr. Stephen Edelson

4182 Adams Avenue

San Diego California 92116

619-281-7165 (voice message service only--no return call)

FAX: 619-563-6840

www.autism.com/ari/

NOTE: You may request a copy of their extensive newsletter and information on vitamin research and trial of intervention protocols. You may also order the new **DAN! biomedical protocols** guidebook from ARI to share with your medical & alternative health care providers. The best way to learn about the ARI is by their web page and the best way to contact Dr. Rimland is by voice mail, fax or mail. It is a research center, not a family service provider, so please do not call. You may request a copy of the ARI newsletter and information on Autism research topics.

Sexuality

Geri Newton
