

The Word on the Street About EXcel

EXcel, an Extended Day Learning Program

What do tutors say about the EXcel Program?

95% of tutors surveyed feel good about the improvement the students they worked with made.

95% of tutors surveyed would recommend this program to parents next year.

98% of tutors surveyed felt supported by ESD 112/EXcel staff.

"Teachers working in our building and working with our kids was the best."

"This opportunity for our students, right after school, was the best. The group was small enough that I felt I made an impact."

"I think the best part was the individual/small group attention that students receive."

"The best thing for students was catching up on missing skills and feeling successful."

"Students were able to receive extra help to reinforce the learning going on in the classroom."

"One of the best things was the excitement students showed when they would arrive for tutoring."

What do students say about the EXcel Program?

97% of students surveyed said they improved their skills in reading or mathematics.

"I really, really love tutoring and it helps me with everything. In my classroom I could tell that my reading improved."

"The best thing about tutoring is learning new things about math that I didn't know."

"The best thing about tutoring is to learn from the best teacher in the world."

"The best thing about tutoring is learning and improving!"

What do parents say about the EXcel Program?

95% of the parents surveyed said they are satisfied with the progress their child made.

95% of the parents surveyed said they would recommend this program to other parents.

98% of the parents surveyed said their child liked going to the EXcel Program.

"The best part of the EXcel program is that my son got the help he needed."

"The best part of the EXcel program is that my daughter's school teacher was her tutor, and my daughter enjoyed learning."

"The best part of the EXcel program is that my child is now out of a reading group at school because of the extra support."

The best part about EXcel is that my child enjoyed it, learned a lot from it and was able to advance in her math skills.

"My child was very satisfied with the EXcel program and said he wanted to go into this program next year too."

"I would like to continue this program next year again. It will be very helpful for my child."
