Educational Service District 112 is happy to bring you the purchasing power of ...

The DigitalEdge

As classrooms, meeting spaces and other learning environments become equipped with digital-age technology, it's important to have access to pricing on technologies that will help to improve learning and presentations. The DigitalEdge utilizes the power of numbers to bring the cost down on technology products and audio-visual equipment, and in these tough financial times, all K-12 schools, colleges and universities, libraries, public and governmental agencies can use a little help in making their dollars stretch a little further. And there are additional benefits to using the DigitalEdge for your purchasing needs than just getting good prices on quality equipment. Some other advantages include:

❖ Our vendors are ready to talk!

While the prices on this product and price list are for single unit purchases, the DigitalEdge allows (and encourages!) the DigitalEdge vendors to adjust prices competitively when the opportunity arises, such as when your organization is purchasing more than one unit, or when you are evaluating two or more models of similar equipment, and want to make sure you are getting the absolute lowest price!

❖ We've done the work for you!

The DigitalEdge eliminates the need for purchasers who require high volumes to conduct their own competitive bid. This results in a substantial saving of personnel time, energy and financial resources.

❖ We know how this equipment supports instruction!

The DigitalEdge is more than just a purchasing program. We are informed about how the equipment on this bid supports instructional strategies that are research-based and proven to increase student achievement! White papers are available on how these technologies support research-based instruction, and our staff is available to provide professional development on integrating the instructional technologies into lessons.

We want to encourage you to continually check the DigitalEdge web site for current price lists (which are updated monthly), specials and promotions, white papers, and other pertinent information regarding this purchasing program. In addition, you'll find other legal documents that might be needed by your organization (such as the public notice, affidavits, the invitation to bid, etc.) that might be needed for auditing purposes. The DigitalEdge web site can be found at:

<http://digitaledge.esd112.org>

You may be wondering who to contact if you have questions about various aspects of the DigitalEdge program. Here is some information to get you started:

Instructional Leadership:
Debbie Tschirgi
Educational Technology Director
360.750.7505, x269
debbie.tschirgi@esd112.org

Contract Administration:
Joe Shorthouse
Purchasing Manager
360.750.7500, x183
joe.shorthouse@esd112.org

Interlocal Agreements:
Nellie McCullough-Witt
DigitalEdge Assistant
360.750.7505, x388
digitaledge@esd112.org

On behalf of Educational Service District 112, we want to welcome you to the DigitalEdge!

Debbie Tschirgi is the Program Director of the DigitalEdge, one of the many programs she oversees at Educational Service District 112 in Vancouver, Washington.

Joe Shorthouse is the ESD 112 Purchasing Manager, and is the Contract Administrator of the DigitalEdge Program.

Product and Price List

Contract Number: ESD112-DE-09

- ❖ This document provides a current list of technology solutions that are available through the DigitalEdge Purchasing Program. **This product and price list is updated monthly**, and is available on the DigitalEdge web site at digitaledge.esd112.org.
- ❖ Products are organized in "sections" in this document. **Please see the Index** on the last page to locate the section that identifies the equipment you are researching.
- ❖ The DigitalEdge contract includes thousands of items, including equipment models and bundles, supplies and accessories, warranties and maintenance plans, and network components. Because of the vast number of items, it is impossible to publish the price of everything on the contract. In addition, there are a couple of hundred "best sellers" that are the products that are most purchased by K-12 schools, colleges and universities, libraries, and other purchasers served by this contract.

The DigitalEdge office has asked the awarded bidders to identify the "best sellers" that they would like to feature in this catalog, and that is what you'll see listed in each section. **However**, you may be interested in knowing about the other products that are on the DigitalEdge contract but are not listed. In this case, we urge you to contact the reseller that you are working with and ask to see the entire list of products and their related supplies and accessories, warranties and maintenance, and network components that are on the contract.

- ❖ For each manufacturer product category, the **Awarded Bidder** is listed in the right column. However, the bidder that was awarded the contract may be a manufacturer that has assigned the contract to one or more resellers, and in that case, you'll need to contact the reseller. To get the contact information for the reseller, please flip to the back of this document, and find the Awarded Bidder's page, and you'll find the appropriate contact there.
- ❖ The DigitalEdge vendors often offer **special promotions** that are lower than the contract price. These special promotions have expiration dates. To learn about the current special promotions, point your browser to digitaledge.esd112.org, click on your state, and then pull down the **Purchasing Info** menu to **Special Promotions**.
- ❖ The prices that are published in this document are for **single unit** purchases. Vendors are allowed to provide even more competitive pricing when the opportunity arises, such as when your organization is purchasing more than one unit, or when you are evaluating two or more models of similar equipment, and want to make sure you are getting the absolute lowest price. Talk to the vendors to get the lowest possible price on the items on this contract.
- ❖ Vendors are authorized to sell their products in specific states. When you are reviewing a list of products in a manufacturer's product line, look at the top of that manufacturer's product line, and **you will see the states in which that vendor is authorized to sell** the products in that line.
- ❖ Vendors on this contract have agreed to provide **on-site demonstrations** on the equipment they are selling. Please feel free to contact them to see the products, evaluate their features, and get your questions answered.
- ❖ Each vendor has included a set of their own, **unique ordering instructions**, which can be found in the back of this document. However, there are a few action steps to take that are common to all of the vendors who have been awarded DigitalEdge contracts:

Using the DigitalEdge Contract Number on your Purchase Orders

Make sure you reference the DigitalEdge contract number on all purchase orders. That ensures that you will get contract pricing, and it helps the vendor and the DigitalEdge office track purchases through this program.

Contract Number: ESD112-DE-09

Submitting Your Paperwork

Submit your purchase order to the vendor as per their instructions, which can be found at the back of this document. After sending the vendor your purchase order, make sure you fax a copy of the purchase order **and** the vendor's price quote to the DigitalEdge office at 360.696.3099.

- ❖ Washington public schools, colleges and universities, public libraries, and public and governmental agencies should call the DigitalEdge office at 360.750.7505, ext. 388, to request an **Interlocal Agreement**. We will get that started for you right away. Organizations in other states should check their state's governing laws to see if an Interlocal agreement is needed. (Please note: ESD 112 can not enter into an Interlocal Agreement with private schools; however, the DigitalEdge contract is available for private schools to use.)
- ❖ If you would like to **request that a specific manufacturer's product line is included** in the DigitalEdge purchasing program, use the form on the following page, or go to the DigitalEdge website at digitaledge.esd112.org and download a request form.
- ❖ There is additional information and documentation available on the **DigitalEdge web site at digitaledge.esd112.org**. Please check there regularly for current price lists (updated monthly), legal documents, scheduled events, webinars, and other information.

Webinars and Special Events

The DigitalEdge has become more than just a purchasing program! We've added some value-added services that set the DigitalEdge apart from other purchasing programs you may know about.

Informational Webinars

DigitalEdge vendor partners have agreed to assist Purchasers in developing a deeper understanding of the educational value of the products that are on the DigitalEdge contract through a series of webinars. These regularly scheduled webinars are intended to provide information that will assist you in making decisions about the solutions that will best meet your needs. These webinars are not really "sales" opportunities for the vendors; rather, they are opportunities for you to gain insights about technology solutions as the experts share their expertise on topics such as what the research says about how various products improve student learning, teacher performance, etc.; trends in technology product development; sample deployments; etc.

Webinars are scheduled on a weekly basis, and take place every Friday from 1:00-2:00 Pacific Time. The first Friday of every month presents an overview of the DigitalEdge program, and the remaining Fridays of each month are devoted to webinars on special topics.

Showcases of Technology Solutions for Classrooms

Three special showcases of classroom technology solutions have been scheduled for 2009-2010. Each day will begin with a presentation on research, trends, or classroom implementation models of a specific technology solution. The rest of the day provides time for you to browse the exhibits, speak with the DigitalEdge vendors, and compare their products.

The three showcases for 2009-2010 include:

- ❖ **Showcase of Sound Amplification**
March 24, 2010 at ESD 112 in Vancouver, Washington

- ❖ **Showcase of Interactive Whiteboards
and Student Response Systems**
April 20, 2010 at ESD 112 in Vancouver, Washington

- ❖ **Showcase of Sustainable Classroom Solutions:
Projectors and Document Cameras**
May 24, 2010 at ESD 112 in Vancouver, Washington

Additional information about the DigitalEdge webinars and showcases can be found on the DigitalEdge web site at digitaledge.esd112.org. (Click on your state, and then go to the Event Schedule menu.)

Request form for a Manufacturer's product line

Background:

The DigitalEdge office at Educational Service District 112 in Vancouver, Washington strives to include a variety of quality instructional technology and audio-visual solutions on its Product and Price List. Purchasers have the opportunity to provide input regarding additional manufacturer product lines to seek through a competitive bid.

Instructions:

If you do not see your preferred manufacturer's product line in a specific category on the DigitalEdge Product and Price List, please use this form to request that the DigitalEdge office seeks that line through a competitive bid process. Print legibly with a dark pen, sign it at the bottom of the form, and fax this page only to the DigitalEdge office at 360.696.3099.

Name: _____

School or Organization: _____

Address: _____

City, State, Zip: _____

Work Phone: _____

Alternate Phone: _____

E-mail Address: _____

Manufacturer Product Line: (Ex: Touch and Teach Interactive Whiteboards, where "Touch and Teach" is the name of the manufacturer, and "Interactive Whiteboards" is the name of the product line.)

Why do you want to see this manufacturer's product line on the DigitalEdge contract? Mark all that apply.

- Our district has standardized on this manufacturer's product line, and would like to continue using it in order to maximize our resources for professional development, technical support and replacement parts.
- This manufacturer's product line meets the specifications for our facility or instructional needs.
- This manufacturer's product line is research-proven and meets the requirements of No Child Left Behind, so that we can use federal dollars for its purchase.
- This manufacturer's product line was introduced to our staff at a professional development session, presentation, seminar or other type of gathering, and our decision-makers have determined that it meets our intended outcomes.
- Other (Please Explain):

Signed: _____ **Date:** _____
(signature of person completing this form)

Each category below provides information about availability of these products in each of the eight states. The bid price of most items includes shipping & handling; sales tax (if applicable) is not included in the bid prices. Please call the vendor to inquire about related products, accessories and supplies, and information on warranties. Vendor information and ordering instructions can be found at the end of this document.

This product and price list is updated monthly, and can be downloaded from the DigitalEdge web site. <http://digitaledge.esd112.org>.

Step 1: Entering into an Interlocal Agreement

Purchasers in the state of Washington must have a current Interlocal Agreement signed and on file with the DigitalEdge at ESD 112 in order to purchase off of this contract. To initiate an Interlocal Agreement, contact the DigitalEdge office at 360.750.7505, or send an e-mail message to digitaledge@esd112.org. The DigitalEdge assistant will have the ESD 112 Superintendent sign two originals, and will send both originals to you in the postal mail. Both agreements need to be approved and signed by the Board of Directors or their designee in your organization. Return one signed original to Nellie McCullough-Witt, DigitalEdge Administrative Assistant, 2500 NE 65th Ave., Vancouver, WA 98661.

Purchasers in states other than Washington should check their own governing laws to determine whether an Interlocal Agreement is required.

A Note Regarding DigitalEdge Interlocal Agreements:

All Interlocal Agreements for the DigitalEdge contract that are signed on or after January 1, 2006 will be an ongoing agreement, and will not need to be signed on an annual basis. This pertains to the DigitalEdge contract only, and does not necessarily apply to other contracts that ESD 112 might have in place.

A Note Regarding Independent Schools and Interlocal Agreements:

ESD 112 can not enter into Interlocal Agreements with independent schools. However, the DigitalEdge makes its purchasing contract available to independent schools.

Step 2: Placing Your Order

You will place your orders directly with the vendor, and will always fax a copy of the purchase order to the DigitalEdge, as per the information for each vendor on the following pages. To ensure bid pricing, include the contract number on your purchase order.

Advanced Classroom Technologies

Contract Number ESD112-DE-09

Mailing Address

To get specific information about the products, pricing, value-added items and warranties, point your browser to the Advanced Classroom Technologies web site at <http://www.advancedclassroomtechnologies.com/WAITB.html>

ACT

Western Washington Eastern Washington - Spokane	John Pexton	digitaledge@k12connected.con	Micro Computer Systems	(800) 658-1000	(866) 217-1034

To place an order:

Contact Micro Computer Systems by phone, fax, or e-mail for a quote. All purchase orders must reference the DigitalEdge contract #ESD112-DE-09 and shall be faxed, along with a copy of the written quotation, to the DigitalEdge office at 360-696-3099. Send a copy of your order to Micro Computer Systems via one of the methods below.

1. Call in your order to 800-658-1000 (in Washington state), or to 800-422-5182 (outside Washington state), and fax a copy of your purchase order and the vendor's price quote to the DigitalEdge office at 360-696-3099.
2. Fax your order to 866-217-1034, and fax a copy of your order and the vendor's price quote to the DigitalEdge office at 360-696-3099.
3. Mail in your order to Micro Computer Systems, 16531 13th Ave W #201, Lynnwood, WA 98037, **and** fax a copy of your order and the vendor's price quote to the DigitalEdge office at 360-696-3099.
4. E-mail your order to Micro Computer Systems at digitaledge@k12connected.com, **and** e-mail a copy of your order and the vendor's price quote to the DigitalEdge office at digitaledge@esd112.org.

To track your order, call 800-658-1000 (in WA) or 800-422-5182 (outside of WA) or send an e-mail to DigitalEdge@k12connected.com referencing your purchase order number.

Procedure for Submitting Return Requests:

- Return requests may be submitted by phone, e-mail (<mailto:rmak12connected.com>) or via a form on the K12connected web site (<http://k12connected.com/rmarequest.html>).
- After submitting basic information including the reason for the return, invoice, serial numbers and condition of packaging, customers are advised as to the feasibility of the return request and any restocking fees or conditions that may apply per our Return Policy below.
- Upon approval of the request by the vendor or manufacturer, a return shipping label is e-mailed to the customer (except for very large or heavy items, for which a freight pick-up is arranged by phone). For returns due to sales error or defect, shipping is paid by MICRO or by the relevant vendor. For other returns, the cost of return shipping is deducted from the final credit memo.
- After visual inspection or vendor confirmation verifies that the item has been successfully returned, a credit memo referencing the original purchase order is issued.

To place an order:

Please contact your preferred FrontRow reseller (above) to inquire about products and the purchasing process, and to obtain return authorizations. All purchase orders must reference the DigitalEdge Contract number (**ESD112-DE-09**). In addition to sending the purchase order to your preferred reseller, you must also fax a copy of the purchase order to the DigitalEdge office at 360-696-3099.

% restocking fee may apply to any order returned after 30 days from the date of purchase.

Component parts missing (cannibalized) from returned products will be deducted from the credit issued.

Returns must be shipped to FrontRow with freight prepaid unless it is determined a shipping error was made by FrontRow in this case a prepaid call tag will be issued.

Rush Fee:

Any order with a premium shipping method request, such as next-day, 2nd day air, or 3-day select, (Emery, Federal Express, etc.) will be shipped the same day if received by FrontRow before 10:00 a.m. Pacific Time and if the product is in stock. Orders received after 10:00 a.m. will be processed and shipped the next business day. The purchase order must state "RUSH ORDER" and requested freight method. All rush shipment charges plus a \$25 rush fee must be reflected on the purchase order.

FrontRow's contact information is as follows:

To place an order:

Please contact Troxell Communications to place orders, track orders, and obtain return authorizations. All purchase orders must reference the DigitalEdge Contract number (**ESD112-DE-09**). Fax a copy of the purchase order to Troxell, as well as to the DigitalEdge office at (360) 696-3099.

Return Policy:

AVRover makes every effort to provide the highest quality products and service. If you have an issue with any AVRover product, please contact us at 800-724-0236. Prior to returning products, a Return Merchandise Authorization (RMA) number must be obtained by contacting AVRover's Customer Service Department (Dog Pack). A 15% re-stocking fee may be applicable. Please have the following information available when calling for an RMA number: customer name, invoice number, date of invoice, and nature of problem. RMA numbers are valid for thirty (30) days after issue. This number must be visible on the address label. Unauthorized returns will be refused.

Prior to shipment of returned goods, contact AVRover for instructions for proper packing. Failure to pack return units per AVRover specifications may result in shipping damage and additional charges. AV Rover participates in a Shockwatch Shipment safety program to eliminate and/or reduce shipping damage.

For more information, contact AVRover:
