

Practices in School During the School Day

School District Buildings During School Day

ESD employees working with students in a school building during the school day will follow school district and building policies and procedures. The administrator of the school will take the lead in ensuring compliance with the appropriate policy and procedure.

ESD Buildings or Outside School Day

ESD employees working with students in ESD buildings, or buildings the school district owns but before or after school, will follow the ESD policies and procedures. ESD program managers will take the lead in ensuring compliance with the appropriate policy and procedure.
