

ABOUT US

The WLS was formed by a collaboration of the nine Washington educational service districts that together can provide more pricing power for schools to purchase software, hardware, and services. The WLS chooses quality educational products and creates convenience contracts for schools to leverage, assuring the best prices possible.

WHY BE A MEMBER OF WLS?

- Districts can purchase products and services at prices better than they can get on their own
- Products are chosen because they are the type demanded by schools
- Vendors are chosen because they have experience working with schools
- Districts can save time by using WLS's convenience contracts rather than placing their own competitive bids.
- Membership is free!
- WLS has saved schools over millions of dollars since 2006
- You can choose from many different educational product categories
- There are over 20+ vendors to purchase from on the WLS
- 208 School Districts, 51 Private Schools, 23 Colleges are WLS members

"Being a member of the WLS is a cost saving opportunity that provides up to date equipment and relevant learning materials while keeping the cost of education down."

- Teresa Fewel, Principal, St. Thomas More Parish School

"The best features of the WLS are quick accessibility to products and services at great prices."

- Scott McDaniel, Director of Technology, Battle Ground School District

MEMBERSHIP

How to sign up:

1. Go to www.walearningsource.org, click on Members and then click on Become a Member
2. Complete an Access Subscription Agreement
