

n√ Power Girls

Cultivating achievement
and interest in STEM

What do the tiny parts of our lives reveal about us and our culture?

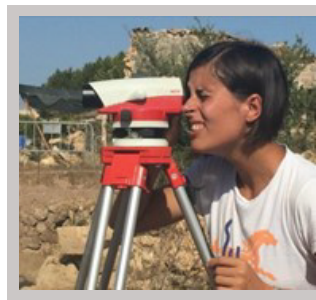

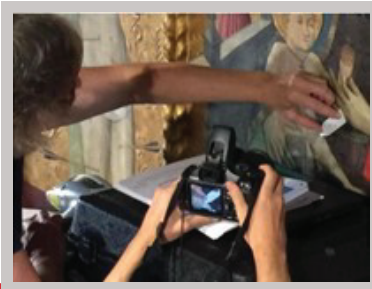

Thursday, December 9th, 2021

How are our stories being told
by the small pieces we leave
behind?

Why do archaeologists care
so much about broken pottery
and chips of paint?

5th, 6th, 7th & 8th Grade Girls! Join the fun and find out!

Register [HERE](#) to get an activity kit by:
December 1st, 2021

Next up in
January:
Brain Science!
