December 15th, 2021
Come interact with these current neuroscience university students about the senses and the brain that processes them!

Wednesday, January 5th, 2021 at 5:30 PM

How do your senses influence the way you see the world?

How do your senses interact with each other?

Does your sense of smell influence your other senses?

5th, 6th, 7th & 8th Grade Girls! Join the fun and find out!

Can we create a superpower sense?
What would happen if I lost a sense?

Join nPower Girls as we meet with women studying Neuroscience to explore the answers.

Register HERE to get an activity kit & inquiry video by:
December 15th, 2021

Already Enrolled? RSVP for the January Event HERE.
